

WEBCON3

The web material contest WEBCON3 was successfully organized at the venue of the 34th ACRS (Discovery Kartika Plaza Hotel) on 22 October, 2013 in Bali, Indonesia. The primary objective of WEBCON is to promote development of web materials and idea exchanges related to the geo-spatial information sciences, which may be the initiative or vision of the future internet-based geo-spatial applications and services. Thirteen groups and around 50 participants attended this event. After a short oral presentation, each team had 90 minutes of free demonstration and interactive discussions. According to their performance, the WEBCON3 jury selected two silver awards and one bronze award this year. The Winners were announced and awarded at the closing ceremony of the 34th ACRS on 24 October, 2013. The winners are:

Silver Award

- Jhe-Syuan Lai, Yi-Hsiu Cheng and Kai-Lun Shih, Taiwan
“3D GIS Applications based on Google Earth Enterprise System for the Community-based Disaster Prevention”
- Chathura Hasanka Wickramasinghe, Mithra Mayadunne, Sri Lanka
“EDGE Disaster Management System”

Bronze Award

- Yao-Hsien Yeh and Guan-Yu Zhou, Taiwan
“Intelligent Change Detection Data-Searching and Analysis-Aiding System”
